Model: 32120

Manufacturer: VERBATIM

EAN: 023942321200

Product Code: 1696342

R1,698

Worldwide Travel Adapter

The Verbatim GaN III Universal Travel Adapter can be used in more than 180 countries – take it everywhere with you and never be out of power. This world-to-world multi plug will allow you to connect to any local power supply around the world and recharge your power-hungry devices, like laptops, smartphones, Bluetooth speakers, tablets, power banks, and more. Just push the sliders on the side of the multi plug to reveal the three most common international plugs - EU, UK, and US - and rotate the pins for sockets in Australia or China.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The Verbatim Travel Adapter uses latest GaN technology, a semiconductor material that can efficiently handle high voltage and high-frequency applications. It enables devices to be smaller, lighter, and more efficient compared to products using traditional silicon-based components.

Superfast 5-in-1 charging

The compact and powerful Verbatim GaN III Universal Travel Adapter allows five devices to be charged simultaneously through the AC power socket and the two USB-C and two USB-A ports.

Three of the four USB ports deliver ultra-fast charging. The two USB-C ports support Power Delivery 3.0 (with PPS support) and Quick Charge 4+ output, up to 65W each, and one USB-A port supports Quick Charge 3.0 output, up to 60W. The other USB-A port has a regular output of up to 5W.

Stylish, Compact and Safe

Housed in an attractive black 3D design, the Universal Adapter is made with high quality fireproof polycarbonate material and is certified by CE, UKCA, FCC and ROHS.

It has safety shutters for child protection that can only be opened with force of more than 75N (7.5Kg) per hole, and its BS1362 compliant fuse (including a spare) gives you 100% peace of mind wherever you may go.
