

ICY BOX IB-CR404-C31 card reader Black

Model: IB-CR404-C31

Manufacturer: ICY BOX

EAN: 4250078172604

Product Code: 1696522

R1,424

The new IB-CR404-C31 is a card reader for CFexpress 2.0 Type-B memory cards. With USB 3.2 (Gen 2) and thus up to 10 Gbit/s, it can read and write to CFexpress 2.0 memory cards with NVMe protocol at blazing speed. The USB combination cable ensures broad compatibility with USB Type-C and Type-A connections. The high-quality housing made of solid aluminium is able to optimally dissipate the heat generated by the memory card through the integrated cooling fins.

For the pros

The CFexpress 2.0 memory card standard is finding its way into system cameras in the professional segment. Those who use such memory cards also need high performance after shooting, hence the IB-CR404-C31. The combi-cable makes it possible to work with both USB Type-C and Type-A ports.

USB 3.2 (Gen 2) and NVMe

A good mixture for the highest expectations: with USB 3.2 (Gen 2), data transfer rates of up to 10 Gbit/s are achieved. Together with the NVMe protocol of the CFexpress Type-B memory cards, this results in a highly performant combination. Copy your files at 1 GB per second!

Cool black

Made of solid aluminium, the IB-CR404-C31 presents itself in a sleek black and a cooling fin design that not only looks cool. CFexpress memory cards can get very warm under heavy load. The cooling fins of this enclosure ensure optimal dissipation of the operating heat.
