Sit or stand as you wish while working. With the EO0033 from LogiLink you can quickly and easily transform your desk into an ergonomic standing workstation. Simply change the height of the scissor lift and prevent any health damage caused by long periods of sitting. Thanks to the squeeze handle with gas spring, this is done smoothly and effortlessly. Also practical: With the built-in slot holder and lower keyboard/mouse platform, more space is gained for equipment and office items. You want to know and see more?
