R5,449

A double jointed gas suspended monitor arm, designed by Multibrackets to optimize your productivity and help reducing strain on neck, back and eyes.

The M VESA Gas Lift Arm HD is made out of a durable aluminum construction and uses a gas driven suspension technique. This makes the screen "float" and it can then be moved with near zero effort. Sleek and streamlined, the M VESA Gas Lift Arm HD frees up space and allows positioning of your display for greater productivity. The unique counterbalance gas technology provides smooth adjustment in any direction. Easy move the screen from landscape to portrait position or move the screen close to the desk, high up, matching almost any wanted working position imaginable.

Supports VESA standards 75x75 and 100x100 and holds screens weighing from minimum 9kg and up to maximum 21kg. This interval is important to keep due to the gas driven piston that keeps your

screen floating in the air.

The snap on head gives a fast assembly and disassembly of the LCD perfect for any IT department who wants to minimize downtime.

The M VESA Gas Lift Arm Basic HD holds to your standard workdesk (max 50mm), or assemble it using a workdesk thru hole technique.
