Ubiquiti UNVR-G2 Network Video Recorder 1U 4 HDD bays 30 4K cameras

Model: UNVR-G2

Manufacturer: UBIQUITI

EAN: 810177165224

Product Code: 1696996

R20,502

ADVANCED VIDEO MANAGEMENT WITH AI ANALYTICS

The Ubiquiti Network Video Recorder G2 (UNVR-G2) is engineered for sophisticated video surveillance, featuring built-in AI event analytics that enhance security monitoring. This 1U rack-mounted NVR supports up to 30 4K or 60 Full HD cameras, allowing for comprehensive coverage of any environment. With the ability to manage up to 150 access hubs and a maximum of 16 simultaneous 4K camera streams, this device ensures that every critical moment is captured and analyzed, providing peace of mind and enhanced situational awareness.

ROBUST STORAGE AND DATA PROTECTION FEATURES

Equipped with four 2.5”/3.5” HDD/SSD bays, the UNVR-G2 offers substantial storage capacity to accommodate extensive video data. The RAID protection feature safeguards against data loss, ensuring that recorded footage remains secure and accessible. With a maximum power budget of 75W for drives and a total power consumption of 100W, this NVR is designed for efficiency and reliability, making it an ideal choice for businesses that require constant surveillance without compromising on performance.

VERSATILE CONNECTIVITY AND MANAGEMENT OPTIONS

The UNVR-G2 boasts a versatile networking interface, including a 10G SFP+ port and a 2.5 GbE RJ45 port, facilitating high-speed data transfer and seamless integration into existing network infrastructures. The device supports multiple management applications, including UniFi Protect, UniFi Access, and UniFi Connect, allowing for centralized control and monitoring. With Bluetooth management capabilities, users can easily configure and manage their surveillance system from their mobile devices, enhancing convenience and accessibility.

DURABLE DESIGN AND COMPLIANCE STANDARDS

Constructed from SGCC steel, the Ubiquiti Network Video Recorder G2 is built to withstand the rigors of continuous operation in various environments. Its compact dimensions (442.4 x 43.7 x 325 mm) make it suitable for rack mounting, while its operating temperature range of 0 to 40°C (32 to 104°F) ensures reliable performance in diverse conditions. The device is NDAA compliant and certified by CE, FCC, and IC, affirming its adherence to stringent safety and quality standards, making it a trustworthy choice for professional surveillance needs.
