

Klevv CRAS C715 512 GB M.2 PCI Express 3.0 NVMe 3D TLC NAND

Model: K512GM2SP0-C7T

Manufacturer: KLEVV

EAN: 4895194901808

Product Code: 1697562

R3,400

M.2 NVMe PCIe Gen3x4 Solid State Drive

Rise Above Your Limits

Budget-friendly

Exceptional value by delivering fast PCIe Gen3 speed and reliable storage

Intelligent SLC Caching Technology

Boost read/write speed and endurance by implementing dynamic SLC caching

High-performance LDPC ECC Engine

Rapid error correction for a longer lifespan and improved retention

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Global Wear Leveling

Evenly distribute write actions to extend the lifespan of the SSD

Advanced Thermal Throttling Algorithm

Sophisticated temperature management to ensure stable operation and extended usage

S.M.A.R.T. for Condition Monitoring

Self-monitoring, Analysis, and Reporting Technology for automatic fault detection and alerts

More Productivity, Faster Speeds

Boost game launches and program data access with PCIe Gen3x4 read/write speeds of up to 3200/2000 MB/s.* Experience snappy and stable system performance that easily keeps up with your demanding workload.

Easy and Affordable Upgrade

Combining the speed and maturity of PCIe Gen3 technology, the budget-friendly CRAS C715 significantly enhances system startup times, file transfers, and program loading and access speeds.

Ultra-compact Design

The CRAS C715 is crafted with an ultra-thin, single-sided architecture, for easy installation and seamless compatibility with mini-PCs, laptops, and other compact form factor devices.

Unrivaled Stability and Dependability

Capable of heavy workloads, thermal throttling maintains smooth operation with device health being S.M.A.R.T. monitored. Lifespan is maximized with global wear leveling evenly distributing data.

Efficient Performing 3D NAND

Carefully selected 3D NAND chips ensure improved performance and durability.
The CRAS C715 boasts a substantial TBW (Terabytes Written), ensuring prolonged usage for added

endurance and reliability.

Elevate Your Workflow

Take your workflow to new heights with the CRAS C715, designed to deliver faster read/write speeds, providing a more stable and reliable multitasking experience for getting work done.

Backup & Migration Software

The KLEVV CRAS C715 SSD provides an activation key, Acronis True Image, offering comprehensive disk-image backup and universal restore functionalities for effortless data transfer.

Compliant with International Standards

All KLEVV products are designed and tested to ensure compliance with regulations/standards that are Internationally-recognized.
