Lenovo ThinkPad T14 Gen 7 22AL is a 14-inch business notebook designed to deliver balanced productivity, secure collaboration, and durable portability for professionals on the move. The 14-inch WUXGA IPS display with 400 cd/m2 brightness and anti-glare treatment supports comfortable viewing in varied lighting, while the 16 MB L3 cache and AMD Ryzen 5 6-core processor help maintain responsive multitasking and everyday performance. Storage and memory options provide fast, encrypted NVMe storage and DDR5 memory for quicker file access and smoother application use. Integrated security features including a Discrete TPM 2.0 chip, fingerprint reader, smart card reader, and a privacy-shuttered 5 MP webcam with Windows Hello and IR support help protect data
