LogiLink 2xLC

Model: NK0030

Manufacturer: LOGILINK

EAN: 4052792040692

Product Code: 1700805

R524

LogiLink’s Fiber Optic Coupler can be used to extend and connect fiber optic patch cable. Due to its standardized size, it fits perfectly into patch panels, face plats or surface boxes. The adapter is for single mode or multi mode fiber available. It is easy to install due to snap-in mounting.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
