Model: ID0170

Manufacturer: LOGILINK

EAN: 4052792047004

Product Code: 1703597

R1,057

Particularly with very long game sessions and office work, wrists are heavily stressed. The Gaming keyboard wrist wrest pad from LogiLink protects your wrist and reduces the pressure. In addition, the soft and smooth surface protects the skin and reduces friction while the anti-slip coating on the back prevents the pad from sliding.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
