R660

This Equip 147945 USB-A to 3.5mm audio adapter allows you to easily connect headphones, speakers, or microphones to devices without a dedicated audio jack. Ideal for laptops, desktops, and other USB-enabled devices, this adapter provides a reliable solution for high-quality audio transmission.

With plug-and-play functionality, no additional drivers are needed—just connect and enjoy clear, immersive sound. Its compact and lightweight design makes it perfect for on-the-go use, while its durable construction ensures long-lasting performance. Whether for music, calls, or gaming, this adapter offers a convenient way to restore or enhance your audio experience.
