

COUGAR Case Fan Apolar 120 ARGB, White (3 in one package)

Model: CF-APR12HW3-RGB

Manufacturer: COUGAR

EAN: 4710483776847

Product Code: 1704136

R1,470

Elite Universal Modular Fan

A fully circumscribed fan maximizes the surface area of the fan blades, delivering maximum performance without compromising style. The Apolar 120 ARGB fan raises your PC building game with efficient quick release daisy-chaining while the Q-Stop “Quiet Stop” dampening system eliminates hum and noise.

Cooling Mastery

Embrace full-scale cooling mastery with the Apolar 120 ARGB’s expanded fan size, circumscribing the entire unit for optimum blade surface exposure. Experience unrivaled airflow delivery without compromising on the stunning RGB lighting, delivering a perfect harmony of performance and style.

Chain Combo

The quick-release connection system allows seamless daisy chaining for rapid integration, ensuring optimal airflow efficiency: swift, easy, tool-free assembly that keeps your rig cool without the hassle.

Fan Service

The Hydro Dynamic Bearings (HDB) extend fan life and reduce noise, while PWM control technology enables precise control of fan speed.

It’s Always The Quiet Ones

Our Q-Stop - Quiet Stop - dampening system completely changes our cooling game. This technology disperses the vibration generated by the fan blades’ operation, eliminating noise and oscillatory load.

Silent Stream

Enhanced Airflow Channels separate flow on the suction side into minimal streams, improving efficiency and reducing noise.
