Star Performer

The E-Star electric gaming desk is designed to optimize usable space. Featuring adjustable heights, memory presets, and an ergonomic design, the E-Star helps you stay healthy while your gaming experience stays stellar.

Maximum Usable Space

The verticality of the independent monitor stand makes the most out of functional space while a cable management tray and headset hanger frees the desktop from clutter, maximizing usable surface area.

Personalized Height Settings

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The electric height adjustment featuring 2 memory presets enables you to find and save your perfect preferred height, whether sitting or standing. Minimizing fatigue leads to enhanced focus, getting you ready for the next round.

Textured Laminate

The carbon fiber-textured laminate gives the desk surface a sleek, modern look.

Full Desk Mousepad

The full-surface mousepad covers the entire desktop, ensuring full freedom of movement for your mouse.
