

COUGAR CPU Water Cooling Poseidon Ultra 360, ARGB, Black

Model: CGR-PSDUTRGB-B-360

Manufacturer: COUGAR

EAN: 4710483777271

Product Code: 1704220

R2,683

POSEIDON ULTRA ARGB

The Coming of Winter

The Poseidon Ultra ARGB stands at the pinnacle of PC liquid cooling. Its Vortent radiator fan achieves the perfect ratio of performance and silence, with its unique frame design generating a vortex effect that optimizes airflow and air pressure. The water cooling block pushes the limits of conduction tech, simultaneously reducing cooling plate thickness and increasing cooling fin surface area, as well as boosting coolant flow speed.

* Support the latest AMD AM5 and Intel LGA1851 CPU sockets.

The Coanda Effect

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Defined as the tendency of a fluid jet to stay attached to a convex surface, this principle of fluid mechanics is the science behind the Poseidon Ultra ARGB’s fan frame design: convex ridges generate a vortex, concentrating airflow velocity to maximize its cooling effect.

Perfectly Balanced

In regular fans, performance is inversely proportional to noise: the stronger the performance, the louder the fan. The Poseidon Ultra ARGB surpasses this conventional compromise to achieve an ideal ratio of performance to noise with a grooved impeller molded with an integrated stabilizing ring, minimizing flex and turbulence during rotation for optimal and silent cooling. Corner dampeners further suppress oscillation, reducing vibration noise.

Cold Current

The Poseidon Ultra ARGB’s water cooling block raises the bar for liquid conduction tech.

25 % Boost

in coolant flow, enhancing the rate and volume of coolant delivery to active components.

28% Increase

in cooling fin surface area, maxing out heat transfer contact area and heat transfer efficiency.

50% Reduction

in copper plate thickness achieves peak conduction.

Cutting-Edge Compatibility

The Poseidon Ultra ARGB supports the latest AMD AM5 and Intel LGA1851 sockets and comes complete with all the mounting hardware to make installation a matter of mere minutes.

Control Fans & Lighting
with Motherboard Sync Software
