everyday use.

Choose for yourself.
Three available form factors — 65%, 80%, and 100% — let you pick exactly the keyboard size that fits your needs and style of use.

HATOR® Aurum Vanila Silent Mechanical Switches

Pre-lubricated linear switches deliver exceptionally smooth and precise actuation while remaining nearly silent — the perfect choice for comfortable typing and gaming without unwanted noise.
The integrated lens evenly distributes the backlight, making the key legends bright and clear even in the dark.

Gasket Mount Architecture

The construction with elastic gaskets between the plate and the case evenly distributes pressure during keystrokes. This reduces vibrations and makes typing sound softer and more pleasant. As a result, the keyboard delivers exceptional comfort and full immersion during work or gaming.

TFT screen

Check key functions, display useful information, or show your favorite animation on the screen.

Lubricated Stabilizers

Hand-finished POM stabilizers ensure smoothness, stability and a harmonious sound on large keys.

Next-Level Sound Insulation

A multilayer sound and vibration isolation system reduces unwanted noise and delivers a comfortable typing experience.

Tri-Mode Connectivity

Choose between wired, Bluetooth or 2.4 GHz wireless connection for optimal use with any device.

Double-Shot PBT Keycaps

Ergonomically sculpted keycaps with shine-through legends provide satisfying tactile feedback and long-lasting durability.

Multimedia control knob

Volume and mute settings are always at your fingertips — or assign any other function you like via the software.

Fully Customizable RGB Lighting

Adjust the lighting of every key with a palette of 16.8 million colors.
The side panels with 19 RGB zones can be synchronized with the main lighting or customized separately via software.

Full N-Key Rollover

No keystroke will be missed – absolute control during fast-paced gameplay.

Customization Software

Take advantage of extensive options to tailor the keyboard to your needs using the dedicated software.
