One-Press Cold Shot for Lasting Styles

Set your curls and lock in your style by holding for 5-10 seconds, ensuring flawless perms that last through any special occasion or gathering.

Rapid Curls with Comfortable Holding

AirStyle Pro features a lightweight design and optimised 360° airflow, efficiently shaping strands into natural curls for an effortless styling experience.

Unsure of the Correct Rotation for Inward or Outward Curls?

Place the barrel next to the side of your head, ensuring you are facing the mirror. Position the triangle symbol outward. As you wrap your hair around the barrel, the outward-facing triangle symbol will guide you to create a natural outward curl.

Flyaway Attachment

Tame Frizz with a Few Swipes

Dense linear outlets direct high-speed air evenly, providing efficient touch-ups for a sleek, polished finish. Head out confidently with a quick last-minute styling.

Round Volumizing Brush

Create Volumes but Tangle-Free

Large perforations diffuse airflow, reducing tangling and improving grip for precise control. Easily shape your ends and explore endless styling possibilities.

Soft / Hard Smoothing Brush

Tailored Care for Every Hair Type

When using the smoothing brush, the airflow is automatically directed downward to enhance the hair-smoothing effect. It provides two types of comb teeth tailored to address specific hair types and conditions.

Fast Dryer

Concentrated Airflow to Boost Efficiency

Advanced convergence airflow design channels 60m/s* air precisely onto the hair, ensuring rapid and even moisture removal.

Seamless Switch

Snap-On Magnetic Design

The design facilitates secure attachment changes, enabling rapid transitions between styling options without interrupting.

Uninterrupted Movement

360° Anti-Tangle Power Cord

The 37°* inclined angle reduces hand contact and tangling, allowing seamless switching and agile manipulation.

Reduced Residues

Dual Intake Filters

Inner stainless steel mesh filters out fine hair and particles; outer mesh prevents hair tangling.
