Robot Vacuum and Mop with Auto-Empty and Mop Self-Cleaning

From dust to tangled hair, L40 Ultra CE tackles it all. A powerful 13,000Pa suction lifts debris from carpets and hard floors, while the TriCut brush prevents hair clogs, reducing tangle troubles. Forget frequent emptying—enjoy up to 100 days of hands-off dust collection. After mopping, warm-air drying keeps odors, mold, and dampness at bay. Plus, Smart Pathfinder™ technology and advanced 3D mapping ensure precise obstacle avoidance and optimized cleaning routes, giving you a smarter, hassle-free clean.

Unleash Powerful Dust Removal

Utilize the powerful 13,000Pa suction to eliminate debris, screws, and stubborn particles effortlessly. The robot vacuum dives deep into carpets and hard floors, ensuring your home stays impeccably clean.

Easy Hair Cleanup with TriCut Brush

The TriCut brush features three safety-designed cutter heads on the roller brush, preventing clogs by cutting and directing hair into the dust box, reducing the hassle of manual cleaning.

100 Days of Hands-Free Disposal

Enjoy up to 100 days of hands-free operation, skillfully capturing debris and particles in a spacious dust bag, minimizing the need for frequent emptying, and making your cleaning process more efficient.

Say Goodbye to Mop Odors

After mop washing, rotary mops undergo warm-air drying to prevent mildew and odors, offering convenient maintenance from start to finish. Experience effortless cleaning and freshness every time.
