Dreame D20 Cleaning Robot (White)

The Dreame D20 is a reliable cleaning robot that will change the way you think about cleaning. Equipped with powerful 13,000 Pa Vormax™ suction, the innovative HyperStream™ DuoBrush, and a mopping function, it effectively removes dust, pet hair, and stains from any surface. Thanks to LDS Smart Pathfinder™ intelligent navigation, up to 285 minutes of runtime on a single charge, and convenient control via the app or voice commands, cleaning becomes faster, more thorough, and completely hands-free. It’s an elegant, personal cleaning assistant that will keep your home sparkling clean—without any effort on your part.

Powerful suction—no dirt is too tough for it

Equipped with the Vormax™ Suction system delivering up to 13,000 Pa of suction power, the Dreame D20 easily handles both dust and larger debris. It effortlessly removes crumbs, dust, and pet hair, guaranteeing 100% effectiveness in picking up large particles. You have five power levels at

your disposal, allowing you to perfectly adjust the cleaning mode to the type of surface—from delicate hardwood floors to demanding carpets.

Innovative DuoBrush HyperStream™ Brush

The secret to the D20’s effectiveness lies in its unique HyperStream™ Detangling DuoBrush system, consisting of two brushes that work together and rotate in opposite directions. As a result, dirt that escapes one brush is captured by the other, significantly increasing cleaning accuracy. The rubber-bristled brush adheres perfectly to hard floors, effectively sweeping dust and dirt from grout lines and gaps between tiles. Meanwhile, the TPU (Thermoplastic Polyurethane) brush excels at handling hair and pet hair of various lengths. Thanks to its TÜV SÜD certification, the system guarantees 100% effectiveness in detangling hair, and ultrasonic sensors automatically adjust the rotation speed (1,000 RPM on hard floors and 1,200 RPM on carpets) to maximize cleaning effectiveness.

Quiet and Gentle Cleaning

Traditional rubber brushes often generate noise and can scratch surfaces. The Dreame D20 is designed to avoid these risks. The soft bristles ensure high cleaning performance while minimizing noise levels. The rubber component activates only when it comes into contact with larger dirt particles or carpets, ensuring quiet, effective, and floor-safe operation.

Vacuuming and mopping in a single cycle

In addition to its vacuuming function, the Dreame D20 also serves as a precision mop. Thanks to 32-level moisture control, you can easily adjust the amount of water to suit the type of dirt and floor. The spacious water tank (350 ml) ensures extended mopping without the need for frequent refills. Meanwhile, the large dust bin (700 ml) ensures the device effectively collects debris without leaving behind unpleasant odors. It’s the perfect solution for both daily cleaning and tackling tougher, dried-on stains.

Precise Smart Pathfinder™ Navigation

The advanced Smart Pathfinder™ system with LDS (Laser Distance Sensor) navigation enables quick mapping and precise cleaning route planning. The robot instantly adapts to the layout of the room,

avoids obstacles, and reaches even hard-to-reach places—from corners to the edges of walls. The system offers features such as support for thresholds up to 20 mm, reliable anti-fall sensors to prevent falls down stairs, the ability to create and edit maps in the mobile app, and multi-mapping (saving multiple floors or apartment layouts).

Full Control and Ease of Use

Control the robot however you like—using the dedicated mobile app or voice commands compatible with popular voice assistants. Set cleaning zones, schedules, power levels, and operating modes to fully customize the device to your needs. Thanks to its 5,200 mAh battery, the Dreame D20 runs for up to 285 minutes on a single charge, and if needed, it automatically returns to the charging dock to recharge and finish cleaning. Vacuuming and mopping have never been easier!

Included in the set

- cleaning robot
- charging station
- main brush (pre-installed)
- side brush (pre-installed)
- dust bin (pre-installed)
- water tank (pre-installed)
- mopping pad (pre-installed)
- mopping pad holder
- user manual

Manufacturer	Dreame
Model	D20
Battery capacity	5,200 mAh
Suction power	13,000 Pa
Dust bin capacity	700 ml
Water tank capacity	350 ml

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice.
