Wet & Dry cordless vacuum cleaner Dreame H12 Pro Ultra

Model: HHR25F

Manufacturer: DREAME

EAN: 6978515254864

Product Code: 1706382

R4,924

Dreame H12 Pro Ultra Cordless Upright Vacuum Cleaner with Mopping Function

The Dreame H12 Pro Ultra is a 3-in-1 cordless upright vacuum cleaner that vacuums, mops, and cleans the brush roll. It features 16,000 Pa of suction power and is equipped with a large clean water tank (900 ml) and a 6 × 4,000 mAh battery, allowing it to clean up to 200 m² of floor space for 35 minutes nonstop. The device automatically washes and disinfects the brush with 60°C water, followed by a 30-minute hot-air drying cycle, ensuring it always remains clean and ready for use. You have 3 operating modes at your disposal (Auto, Ultra, Suction), an intelligent LED display, voice prompts, and a dirt detection feature that adjusts suction power to current conditions. This solution is designed for everyday use, combining effectiveness, convenience, and hygiene.

Brush cleaning and disinfection with 60°C water

Once cleaning is complete, you don’t have to manually clean the dirty brush—the device automatically rinses it with hot water at 60°C, effectively removing any remaining dirt, grease, or bacteria. This step not only restores the brush to a clean state but also disinfects it, which is especially important in homes with children, people with allergies, or pets. The process is started with a single button, and the entire cleaning cycle takes place in the charging station—without any contact with dirt.

Hot-air drying of the brush in 30 minutes

Once the cleaning cycle is complete, the Dreame H12 Pro Ultra automatically activates the warm-air drying function for the brush. The process takes 30 minutes and removes moisture from the bristles, preventing mold and unpleasant odors. This keeps the brush clean and dry. It’s a feature that makes a real difference in the device’s daily hygiene.

16,000 Pa for all types of dirt

The device is equipped with a motor operating at over 104,000 revolutions per minute, which generates suction power of up to 16,000 Pa. This means the vacuum cleaner effectively picks up everything from spilled cereal, dust, and sand to wet messes like spilled milk, mud, or food scraps. It’s suitable for all types of floors—laminate, tile, and vinyl. What’s more, it automatically adjusts suction power to the level of dirt for even greater cleaning effectiveness.

Edge Cleaning and Effective Hair Removal

A specially designed brush with a flexible scraper handles hair and pet hair by cutting through tangled strands and directing them straight into the dirty water tank. What’s more, the Dual Edge Cleaning design allows you to clean along walls and baseboards from both sides of the brush. This ensures that the entire surface is thoroughly cleaned.

Operating modes tailored to your needs

The Dreame H12 Pro Ultra offers 3 intuitive operating modes: Auto for everyday cleaning, Ultra for deep cleaning of stubborn dirt, and Suction—a mode that vacuums without mopping—useful, for example, for picking up spilled water or liquids. Switching between modes is instantaneous and allows you to select the appropriate operating mode based on the type of surface and the level of dirt.

Smart LED Screen and Voice Prompts

The device features a clear LED display that shows the battery level, the floor’s dirt level, the active mode, and when maintenance is needed. Additionally, the voice assistant alerts you when the tank is full, when it’s time to recharge, or when the brush needs cleaning.

Larger tank and powerful battery—longer uninterrupted operation

The vacuum cleaner is equipped with a 900-ml clean water tank, allowing for longer cleaning sessions without the need to refill water frequently. Meanwhile, the battery pack with a total capacity of 6 × 4000 mAh provides up to 35 minutes of runtime on a single charge—enough to clean an area of up to 200 m² in Auto mode.

A charging station and storage base in one

The package is rounded out by a charging station that not only charges the device but also serves as a cleaning dock and a storage space for the vacuum cleaner and its accessories. Everything is in one place, always within reach and ready to use.

Quiet, Lightweight, and Convenient to Use

The Dreame H12 Pro Ultra is designed for quiet operation and maximum comfort. A brushless motor, optimized airflow, and a soft brush ensure the device operates surprisingly quietly, without disturbing family members or pets. The swivel wheels and powered brush make cleaning effortless.

Included in the set

- vacuum cleaner body
