Dreame H40 humidifier Steam 6 L Grey

Model: CVF13A

Manufacturer: DREAME

EAN: 6978515256837

Product Code: 1706387

R4,362

Dreame H40 Humidifier

The Dreame H40 combines the functions of a humidifier and purifier to create optimal conditions in any interior. With Mist-Free Evaporative Technology, it increases the humidity of the air without creating a visible mist, which prevents white residue and moisture buildup. The system distributes water evenly throughout the room, providing fresh, comfortable air all day long.

Precision humidification in 8 minutes

An impressive 800 ml/h capacity allows you to restore the right level of humidification in no time - you'll see the first results in just 8 minutes after startup. The capacious 6-liter tank allows for 24 hours of uninterrupted operation, and the simple top-up system makes topping up water fast and convenient.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Intelligent adjustment of conditions

The device analyzes the microclimate in real time and automatically adjusts humidification output to meet current needs. The built-in Smart Humidity Control algorithm responds to changes in temperature and humidity, maintaining a stable, healthy level of humidification in the home. All this can be controlled from an easy-to-read digital display.

Four-stage filtration technology

The Dreame H40 uses a 4-stage purification system that removes bacteria, lime deposits and impurities from the water. A high-efficiency composite filter, UVC lamp, phosphate-based anti-sediment agent and anti-bacterial 3D filter ensure clean air and long-lasting performance of the unit.

Comfort and energy savings

Operating at a volume of only 32 dB(A), the H40 does not disturb sleep or daily rest. Night mode and automatic drying of the filter after operation protect against bacterial growth. The unit consumes only 0.6 kWh per day, making it environmentally and household budget-friendly.

Intuitive and safe operation

The Dreame H40 can be operated either from the touch panel or by remote control with a range of up to 5 meters. The concealed remote control, parental lock and secure air outlet cover guarantee hassle-free use in any home. It's the perfect solution for those who value convenience, aesthetics and superior air quality.

Included

- Main unit
- Adapter with power cord
- Antibacterial filter mesh (gray)
- User manual
