Dreame Ecceluxe™ Slim Coffee Maker (Gray)

The Dreame Ecceluxe™ Slim is a fully automatic coffee maker with an ultra-slim design that combines compact dimensions (18 cm wide) with advanced brewing technology, allowing you to enjoy high-quality coffee without taking up valuable counter space. The machine offers 19 bar pressure, intelligent temperature control at 92°C, and rapid heating in 36 seconds, allowing you to prepare aromatic coffee in no time. Quiet operation (below 65 dB) and an easy-to-clean brewing system further enhance the comfort of daily use. Thanks to the touch panel, you can conveniently select one of 5 classic coffee drinks—espresso, lungo, cappuccino, latte macchiato, or flat white

Smart grinding and quiet operation

The built-in grinding system with 9-level adjustment automatically adapts the amount of coffee based on extraction parameters, ensuring optimal flavor in accordance with SCA standards. The fully enclosed motor chamber effectively dampens noise, keeping it below 65 dB, so you can make coffee at any time without disturbing your household.

Perfect extraction and velvety crema

The Golden Extraction system uses a 19-bar pump and an intelligent temperature sensor that maintains the temperature at 92°C, ensuring stable brewing conditions. The micro-vacuum valve eliminates excess foam and air bubbles, giving the coffee a smooth, silky texture and natural crema. The result is a beverage with a full aroma and balanced flavor, reminiscent of coffee prepared by a barista.

Intuitive operation and a wide selection of beverages

The touchscreen control panel allows you to prepare beverages such as espresso, lungo, cappuccino, latte macchiato, or flat white with the touch of a button. The machine also offers hot water and milk frothing functions, increasing its versatility. Automatic microfoam ensures the perfect milk consistency without manual adjustment, significantly simplifying the preparation of milk-based coffees.

Hassle-free cleaning

The removable brewing unit can be taken out with one hand in just 3 seconds and rinsed under water. The milk frothing system can be fully disassembled, allowing for thorough cleaning without leaving any residue. Additionally, the machine offers automatic rinsing upon startup and shutdown, a 60-second deep cleaning program, and a descaling function, which significantly reduces the need for manual maintenance.

Convenience Features

The Dreame Ecceluxe™ Slim coffee machine is equipped with a 1.5-liter water tank, a bean container (150 g), and a compact milk container (240 ml). The adjustable spout height (from 9 to 11.5 cm with the drip tray and up to 15 cm without it) allows you to adapt the machine to various

cups and glasses. The notification system alerts you when water or beans are running low or when the grounds container needs emptying, ensuring intuitive operation.

Perfect for small kitchens and narrow countertops

With a width of just 18 cm—less than an A4 sheet of paper—the Dreame Ecceluxe™ Slim fits perfectly on narrow countertops, in small kitchens, or in apartments. Its compact design allows you to place the machine where standard models won’t fit. The minimalist design also blends well with modern interiors, so the machine not only brews coffee but also aesthetically complements the space.

Included:

- Main unit
- Detachable power cord
- Milk container
- Milk container base
- Milk tube
- Bean container lid
- Cleaning brush
- Descaling solution x3
- Cleaning cloth
- Cleaning needle
