Dreame G12 Pro Cordless Upright Vacuum Cleaner with Mopping Function

The Dreame G12 Pro is a cordless upright vacuum cleaner with a mopping function that combines high suction power of 25,000 Pa with an intelligent cleaning system and self-cleaning brush at 90°C, as well as hot air drying at 95°C. Its slim design, just 9.55 cm tall, allows it to reach under furniture, while the dual scraper system prevents hair tangles and streaks. With an 80° swivel design, up to 35 minutes of runtime, and the ability to clean areas up to 200 m², the device ensures convenient and effective cleaning throughout your home.

Uncompromising power and high cleaning efficiency

At the heart of the device is a high-speed bionic motor operating at up to 140,000 rpm, which generates impressive suction power. It is currently Dreame’s smallest and most powerful motor, translating to high efficiency while maintaining a compact design. The vacuum cleaner easily handles both everyday dust and tough stains, such as chocolate, pet food, or even spaghetti, ensuring thorough cleaning of various surfaces.

Smart mopping and always clean water

The advanced adaptive cleaning system analyzes the level of dirt and automatically adjusts both suction power and water volume, distinguishing between three levels—Light, Medium, and Heavy. This ensures the device always selects the optimal settings for current conditions, providing effective and even floor cleaning. Additionally, the surface is cleaned exclusively with fresh water, and dirt is collected in a separate tank, preventing it from being spread again.

Dual-Scraper System – a streak-free floor

The Dual-Scraper System combines two elements responsible for thorough floor cleaning. The flat scraper effectively removes excess water, minimizing streaks, while TangleCut™ 2.0 technology prevents hair and pet fur from tangling, as confirmed by TÜV SÜD certification. This means you don’t have to manually clean the brush, and the floor remains evenly clean after cleaning.

Top-level hygiene – washing and drying at 95°C

After cleaning is complete, the device automatically switches to self-cleaning mode. The brush is thoroughly washed with hot water, and then the entire system—the roller, base, and filter—is dried with hot air at 95°C in just 30 minutes. This solution effectively limits bacterial growth and eliminates unpleasant odors, ensuring the device is always ready for the next use.

Slim design and full freedom of movement

Thanks to its ultra-slim design, the vacuum cleaner easily fits under furniture where standard devices cannot reach. The cleaning module is only 9.55 cm high, and the tubes together with the dustbin measure 9.85 cm. The 80° swivel head allows for easy maneuvering around obstacles and in tight spaces, while the ability to clean right up to the edge ensures thorough cleaning along walls

and baseboards.

Longer cleaning without interruptions

A spacious 1,000 ml clean water tank, combined with a high-capacity battery, allows for up to 35 minutes of cleaning without refilling or recharging. In a single cycle, you can clean an area of up to 200 m², making the device ideal for both apartments and larger homes.

Intuitive operation and clear display

The vacuum cleaner is equipped with an LED screen located on the handle, which displays the battery status and active operating mode in real time. Additionally, voice prompts simplify operation and inform you about the device’s key functions. There are four operating modes to choose from—Smart, Suction, Turbo, and Quiet—allowing you to tailor the vacuum cleaner’s performance to your current needs.

Included in the set

- vacuum cleaner
- handle
- charging station
- cleaning brush

Manufacturer	Dreame
Model	G12 Pro
Battery capacity	6 x 2500 mAh
Suction power	25,000 Pa
Clean water tank capacity	1 L
Dirty water tank capacity	500 ml (upright), 300 ml (flat)
