Lepro OE1 Floor Lamp

Model: OE1-EU

Manufacturer: LEPRO

EAN: 4894495042456

Product Code: 1706402

R2,115

Lepro OE1 Floor Lamp

The Lepro OE1 is a smart floor lamp that stands 140 cm tall and delivers 1,000 lumens of brightness, allowing you to completely transform the atmosphere of any room. It offers over 16 million RGB colors, smooth brightness adjustment, music synchronization, and advanced control features via the Lepro app. Thanks to 2.4 GHz Wi-Fi and Bluetooth connectivity, voice command support, and AI technology, the lamp can automatically select lighting effects to match the mood, occasion, or user preferences.

AI-powered smart lighting

The Lepro OE1 utilizes Lepro LightGPM AI technology based on a large language model (LLM) trained using knowledge from the fields of color psychology and lighting design. This allows the lamp to adjust colors, shades, brightness, and lighting effects to specific scenes and moods. Simply give a simple command, such as “I want Christmas lights,” or describe your mood to get a perfectly tailored lighting arrangement.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Over 16 million colors and full customization

The lamp offers a wide palette of over 16 million RGB colors, allowing you to create the right atmosphere for any occasion. The dimming feature lets you easily adjust the light intensity to your current needs, while the ability to create schedules and timers automates your daily lighting routine. You can also group several compatible devices and control them simultaneously via the app.

Music Synchronization and Dynamic Lighting Effects

The Lightbeats feature allows you to synchronize the light with the music being played, creating impressive animations that react to sound. Using the app, you can choose from various modes, such as Flash, Wave, or Laser, and adjust the brightness of the effects. This makes the lamp perfect for both gatherings with friends and relaxing to your favorite music.

Convenient voice and remote control

The Lepro OE1 works with Amazon Alexa and Google Assistant, allowing for convenient control without reaching for your phone. In addition to voice commands, users can use the Lepro app, which provides full control over lighting settings via Wi-Fi or Bluetooth. This convenient solution allows you to quickly change lighting scenes and manage all the lamp’s functions from a single place.

For various rooms

The slim, 140 cm tall design makes the lamp look great in the living room, bedroom, gaming room, or home office. The round base, 20 cm in diameter, ensures stability, while the minimalist design allows the lamp to easily blend into various interior designs. The long power cord gives you the freedom to place the lamp wherever you choose.
