FANTTIK Slim V10 Mix Cordless Car Vacuum Cleaner

The FANTTIK Slim V10 Mix Cordless Car Vacuum Cleaner is a compact 4-in-1 device that combines the functions of a vacuum cleaner, blower, air pump, and vacuum pump. With suction power of up to 16,000 Pa, a 100 W brushless motor, two operating modes, and a cordless design, it’s perfect for cleaning your car, home, office, or while traveling. It weighs just 515 g, charges via USB-C, features a clear LED display, and comes with a comprehensive set of accessories that allow it to effectively reach hard-to-reach places.

Four functions in one device

The FANTTIK Slim V10 Mix is a practical solution for everyday tasks. It vacuums car interiors, furniture, keyboards, and other hard-to-reach areas, and when you switch the attachment, it

functions as a blower to remove dust from electronics and tight corners. The pump function allows you to quickly inflate mattresses, yoga balls, beach accessories, and swim rings, while the air extraction function makes it easier to use vacuum bags, helping to save space during storage.

High Power and Efficient Performance

Its effectiveness comes from a modern, brushless motor that generates suction power of up to 16 kPa (40 AW). The device effortlessly removes sand, dust, crumbs, and pet hair. There are two power levels available—maximum mode provides up to 13 minutes of intensive vacuuming, while standard mode extends runtime to up to 35 minutes, allowing you to adjust the power to the type of dirt.

Lightweight Design and Comfortable Handling

Weighing just 515 g, the vacuum cleaner is comfortable to use even during longer cleaning sessions. The ergonomic handle fits comfortably in your hand, and its compact size makes it easy to store the device in your car. Charging via a USB-C port allows you to conveniently recharge the battery almost anywhere.

Intuitive display and easy cleaning

The color LED display shows the battery charge level and the currently selected operating mode, so the most important information is always visible. The transparent 120-ml dustbin can be emptied with the push of a button, minimizing contact with debris. The HEPA filter, which traps up to 99.99% of fine particles, can be easily removed and washed, making it simple to maintain high vacuuming performance.

Accessory Kit for Various Applications

The set includes practical attachments that make cleaning and using the device’s other functions easier. The set includes a crevice tool, brushes for cleaning various surfaces, short and long air-blow nozzles, an air-blow nozzle with a small brush, and a multifunctional air-blow nozzle. The set is rounded out with a USB-C cable, a filter cleaning brush, and a storage bag, ensuring the vacuum is ready for use both at home and while traveling.
