Dreame Ecceluxe Master Coffee Maker (Gray)

Your morning no longer has to start with measuring out coffee and frothing milk. The Dreame Ecceluxe™ Master handles these tasks on its own, letting you prepare your favorite drink with a single touch. The machine combines 19-bar pressure, precise temperature control, a Cold Brew function, and nine grind settings. It also offers six classic coffee varieties and can brew up to 45 cups of espresso on a single fill. The 2-liter water tank and 500-ml milk container reduce the need for frequent refills, and the self-cleaning system minimizes the time required for maintenance.

Six Ways to Make the Perfect Cup of Coffee

Some days we crave a strong espresso; other days, a velvety latte. The Dreame Ecceluxe™ Master lets you prepare your favorite drink with a single touch. With six coffee options available, there’s

something for everyone in the household.

A Refreshing Cold Brew

Coffee lovers are increasingly turning to cold brew, appreciating its milder flavor and exceptional freshness. The Dreame Ecceluxe™ Master lets you prepare this drink in an instant. The lower extraction temperature brings out the natural sweetness of the beans and creates a refined flavor. It’s the perfect choice for hot days as well as gatherings with family and friends.

Nine grind settings for complete control over the flavor

Each bean has its own unique character, which is why the right grind size plays such a crucial role in the brewing process. The coffee maker offers nine precise settings that let you adjust the brewing parameters to the type of beans and your desired flavor profile. From bold, intense notes to more delicate and floral accents—the Dreame Ecceluxe™ Master helps bring out the full aroma of every cup of coffee. The adaptive calibration system ensures consistent extraction, so every cup delights with its flavor.

Silky crema and full aroma in every cup

With espresso, it’s not just the deep aroma that matters, but also the thick, golden crema. The extraction system, which uses 19 bars of pressure and precise temperature control, brings out the very best in the beans. The result is a rich aroma, deep flavor, and the perfect consistency. Every sip evokes a moment spent in an intimate café where every detail matters—from the right grind size to a perfectly prepared layer of creamy foam.

Creamy milk foam at the touch of a button

A morning cappuccino, a delicate latte macchiato, or a classic flat white all require perfectly frothed milk. The Dreame Ecceluxe™ Master is equipped with a system that allows you to prepare thick, fluffy, and silky-smooth foam with the press of a single button. Seamless adjustment of settings allows you to tailor the milk’s consistency to your chosen beverage, ensuring that each creation retains its unique character.

Up to 45 cups on a single fill

Weekend get-togethers, family breakfasts, or long conversations around the table all have their own unique atmosphere, and good coffee plays a key role in them. With a 2-liter water tank, a 500-ml milk container, and the ability to store up to 450 g of coffee beans, the machine is ready for heavy use over an extended period. A single fill-up allows you to prepare about 45 cups of espresso. This feature will be appreciated by both those who drink coffee regularly throughout the day and hosts who frequently entertain guests.

Smart cleaning that saves you time

The Dreame Ecceluxe™ Master is equipped with a self-cleaning system for the entire unit, which reduces the need for manual maintenance. This allows you to focus on what matters most—choosing your favorite beans, experimenting with new flavors, and celebrating everyday moments with a cup of perfectly brewed coffee.

An elegant, eye-catching design

The machine’s modern design blends perfectly with both minimalist and more classic interiors. The spout’s adjustable height, ranging from 10 to 14 cm, allows for convenient use with various types of cups and glasses, and the well-thought-out design makes daily operation intuitive and comfortable.

Included:

- Main unit
- Milk container
- Measuring spoon (6 g)
- Lid for the bean container
