Accessory Puluz Professional 3-Way

Model: PU1105H

Manufacturer: PULUZ

EAN: 5905156111769

Product Code: 1706409

R3,350

Puluz Professional 3-Way Accessory

Capture dynamic footage while riding a bike or motorcycle with the Puluz Professional 3-Way mount. This accessory allows you to securely mount an action camera or panoramic camera on your handlebars, and the 3-way adjustment system lets you freely adjust the recording angle to suit your current needs. The sturdy construction made of aerospace-grade aluminum ensures durability and resistance to harsh off-road conditions, while the non-slip mounting elements help minimize vibrations while riding. The mount is compatible with Insta360, GoPro Hero, and DJI Osmo Action cameras, among others, as well as devices equipped with a standard 1/4-inch threaded mount.

Complete freedom to position your camera

An advanced three-way adjustment system allows you to tilt, rotate, and pan the mounted camera, providing great freedom when framing your shots. You can point the lens forward or backward, capture a bird’s-eye view, shoot from a low angle, or position the camera at an angle suitable for

taking selfies. This makes it easy to adapt your filming style to the nature of the route and the type of footage you’re capturing. Additionally, sturdy knobs and locking screws prevent accidental changes to the camera’s position, even when riding over rough terrain.

Stable Mounting on Bicycles and Motorcycles

The Puluz Professional 3-Way Mount is equipped with a sturdy clamp that allows for mounting on standard bicycle and motorcycle handlebars, as well as on frame tubes or protective cage components. The clamp’s non-slip surface finish increases mounting stability while protecting the surface from scratches. It also helps reduce vibrations transmitted from the vehicle while riding, which helps produce steadier footage. Durable metal screws and fasteners ensure a secure mount even in strong winds, during engine vibrations, or when tackling challenging off-road trails.

Aluminum Construction for Demanding Routes

The mount is made of aerospace-grade aluminum alloy, precision-machined using CNC technology, ensuring high rigidity and load-bearing capacity. The material also stands out for its resistance to weather conditions and corrosion, making the accessory ideal for regular outdoor use. Additional protection is provided by a gray anodized coating that safeguards the metal surface. The standard mount for action cameras and the option to use a 1/4-inch threaded adapter allow you to use a variety of cameras, extension arms, and mounts for panoramic devices.

Included

Puluz Professional 3-Way Mount
Mounting screw
Mounting base for action cameras
Allen wrench
