Uperfect 15.6" Portable Monitor

The Uperfect portable monitor combines high image quality with a lightweight and exceptionally slim design. The 15.6-inch IPS screen with Full HD 1920 × 1080 resolution and a 16:9 aspect ratio offers 350 nits of brightness, a 2000:1 contrast ratio, a wide color gamut of 125% sRGB, and 16.7 million colors with a Delta E <2 accuracy. Support for HDR and FreeSync further enhances the device’s capabilities for both multimedia viewing and gaming. With a thickness of just 7 mm and a weight of approximately 700 g, the device is ideal for both work and entertainment, ensuring a comfortable user experience at home, in the office, and while traveling.

Clear Image and Color Depth

The advanced IPS panel ensures rich detail reproduction in both bright and dark areas of the image. A 2000:1 contrast ratio delivers deeper blacks, more vivid highlights, and greater image depth. The expanded 125% sRGB color gamut ensures natural tonal transitions and accurate color reproduction,

while the ability to display 16.7 million colors and a DeltaE<2 accuracy help preserve the natural appearance of the content being displayed. The Full HD resolution of 1920 × 1080, meanwhile, lets you see a wealth of detail while working, watching movies, and enjoying multimedia.

Smoother Gaming with FreeSync

The Uperfect monitor is ideal not only for work but also as a secondary screen for gaming. FreeSync technology helps synchronize the displayed image and reduce screen tearing, making dynamic scenes appear smoother. A 1 ms response time further enhances the clarity of fast-moving action, which is especially useful when playing action games, racing games, or other dynamic titles.

HDR and Greater Eye Comfort

HDR mode enhances contrast and color intensity, delivering an even more realistic picture. In addition, blue light reduction technology is incorporated to help reduce eye strain during extended screen use. The display’s matte finish further enhances comfort when working in various lighting conditions.

Slim Design and Built-in Stand

The slim profile and light weight make the monitor easy to carry and pack into a bag or backpack. The built-in stand allows for smooth tilt adjustment from 0° to 70°, making it easy to adjust the screen’s position to your current needs. This feature helps increase comfort while working, reduce neck strain, and improve workplace ergonomics. The monitor can therefore serve as a secondary screen for a laptop, whether at a fixed workstation or while working outside the office.

One monitor, many possibilities

The device offers broad compatibility. USB-C ports enable connectivity with smartphones, tablets, laptops, and computers, among other devices, while the mini HDMI port allows you to connect game consoles and portable gaming platforms. The monitor is compatible with devices running Windows, macOS, Android, and iOS, as well as with PlayStation, Xbox, Nintendo Switch, and Steam Deck. Its VESA 75 x 75 mm-compliant design also allows for integration with professional workstations.

Plug in and start using it

Thanks to Plug & Play support, using the Uperfect monitor requires no complicated setup—simply connect it to a compatible device using the appropriate cable. The monitor can be powered via a USB-C cable, which helps reduce the number of cables needed and keep your workspace tidy. An added bonus are the two built-in speakers offering balanced stereo sound, which works perfectly while working, watching movies, and during everyday use of the device.

Included

- Portable monitor
- Mini HDMI cable
- USB-A/USB-C cable
- USB-C to USB-C cable
- User manual
