EMEET Prime Webcam

The EMEET Prime is a webcam equipped with an 8 MP sensor, 4K video support, HDR, PDAF autofocus, and two lenses—a wide-angle and a telephoto lens. The camera records video at resolutions up to 3840 × 2160 at 30 fps, and at 2560 × 1440 and 1920 × 1080, it also supports smooth 60 fps. It also features a 12x hybrid zoom, a 2x optical zoom, a 6x digital zoom, an HDMI 2.0 output, and two microphones with a range of up to 3 meters, making this model ideal for live streaming, recording, presentations, and online meetings.

Two Lenses and Versatile Framing Options

The wide-angle lens offers an 85.1° field of view, allowing you to capture a larger portion of the room or presentation area during presentations and broadcasts. The telephoto lens, with a 49.1° field of view, makes it easy to achieve a tighter frame when you want to focus the viewer’s attention on a person or a presented object. The combination of 2x optical zoom and digital zoom provides up to 12x hybrid zoom, giving you greater freedom to adjust the frame without having to constantly

reposition the camera.

4K Video, HDR, and Fast Focusing

The EMEET Prime supports 4K resolution and HDR technology, which helps preserve details in both the brighter and darker areas of the frame. PDAF autofocus automatically adjusts the focus, and the focusing range of 10 to 300 cm allows you to seamlessly transition from standard close-ups of faces to showcasing objects closer to the lens. At QHD and Full HD resolutions, the camera can operate at up to 60 fps, allowing for smoother playback of motion in recordings and live streams.

HDMI 2.0 and Broad Compatibility

The HDMI 2.0 output allows video signals to be transmitted from the camera to compatible external devices, such as a preview monitor, video grabber, or video mixer. According to the specifications, the EMEET Prime E3164 supports the following resolutions via HDMI: 3840 × 2160 at 24, 25, 30, 50, or 60 fps, 2560 × 1440 at 30 or 60 fps, and Full HD at up to 60 fps. The camera is also compatible with popular software and platforms such as OBS, Twitch, YouTube, Facebook, XSplit, and ManyCam, and additionally supports the EMEET STUDIO software.

Two Microphones and Convenient Mounting

The camera has two built-in microphones with a claimed sound pickup range of up to 3 meters, allowing it to capture voice during typical desk-based conversations and streams. A standard 1/4-inch thread allows the device to be mounted on a compatible tripod or mount, making it easy to adjust the height and recording angle. USB connectivity and compatibility with Windows 10 and newer 64-bit systems, macOS version 10.14 and later, and the UVC standard make it easy to integrate the camera into your existing setup.

Included in the box

- EMEET Prime camera
- Privacy cover
- Remote control
- USB cables
