UPERFECT M160T06 16" Portable Monitor

Enjoy exceptionally detailed images and work comfortably anywhere with the UPERFECT M160T06 portable monitor. The device features a 16-inch IPS panel with a resolution of 3840 × 2400 pixels, ensuring exceptional sharpness and readability of displayed content. With a brightness of up to 1200 cd/m², HDR support, and 100% sRGB color coverage, the image impresses with its richness of detail and color. The monitor also offers a 60 Hz refresh rate, FreeSync technology, and wide 178° viewing angles. With its slim aluminum chassis—just 10 mm thick—USB-C and mini HDMI ports, and built-in speakers, it’s perfect for both work and multimedia use.

4K Resolution – See Every Detail

The UPERFECT M160T06 displays images at a resolution of 3840 × 2400 pixels, offering a large workspace and exceptional detail. With a pixel density of 283.02 PPI, even fine text and small graphic elements remain sharp and legible. The 16:10 aspect ratio provides additional vertical space, making it easier to view documents, work with spreadsheets, or edit graphic materials.

Impressive brightness and realistic colors

With a brightness of up to 1200 cd/m², the display delivers a vivid image even in brightly lit environments. The IPS panel offers wide 178° viewing angles, ensuring that colors and details remain clearly visible even when viewed from the side. 100% sRGB color gamut coverage and 8-bit color depth enable the display of 16.7 million shades, ensuring rich and natural colors. Meanwhile, the 1500:1 contrast ratio ensures clear distinctions between light and dark areas of the image. The matte finish further reduces glare, enhancing comfort during extended use.

An Even Better Experience with HDR and FreeSync

The monitor supports HDR technology, which enhances details in both bright and dark areas of the image. As a result, the content you watch becomes more vivid, and individual scenes appear more realistic. Another advantage is FreeSync technology, which helps reduce screen tearing when displaying dynamic content. The 60 Hz refresh rate ensures smooth image display during everyday tasks, and the 25 ms response time rounds out the panel’s specifications. This is a practical combination of features for both work and multimedia entertainment.

Convenient Connectivity and More Options

The UPERFECT M160T06 is equipped with two multifunctional USB-C ports that support video and audio transmission, making it easy to connect compatible devices. There is also a mini HDMI input, which provides an additional option for transmitting audio and video signals. This solution allows you to flexibly adapt the connection method to the equipment you’re using. In addition, the monitor features a 3.5 mm AUX audio output, allowing you to connect external headphones or speakers. Two built-in speakers, each with an impedance of 8 Ω and a power output of 1 W, allow you to play audio without needing additional accessories.

A slim design that makes work easier

The device stands out with its compact dimensions of 354 × 230 × 10 mm, so it doesn’t take up much space and is easy to take with you. The aluminum housing combines sturdy construction with a slim design, making it ideal for everyday use. The monitor also supports the VESA 75 × 75 mm mounting standard with an M4 × 4 mm mount, allowing it to be installed on a compatible mount and helping you make better use of your workspace. The rated power is 14 W, and the included power adapter provides the monitor with the necessary power—this model does not have a built-in battery.

Included in the package

- UPERFECT M160T06 16″ 4K portable monitor ×1
- USB-C to USB-C cable ×2
- Mini HDMI to HDMI cable ×1
- Power adapter ×1
