UPERFECT M185T09 18.5″ 120 Hz FHD Gaming Monitor

Enjoy smooth visuals during gameplay and gain extra space for your daily work with the UPERFECT M185T09 monitor. The monitor features an 18.5-inch IPS panel with Full HD resolution (1920 × 1080), a 120 Hz refresh rate, and a 14 ms response time. Support for HDR and FreeSync technologies ensures a better visual experience while gaming and watching dynamic content, and 100% sRGB color coverage lets you enjoy rich colors. The monitor also stands out with its slim 18-mm design, built-in speakers, and USB-C and mini HDMI ports, making it easy to connect to compatible devices. It’s a practical solution for both gamers and anyone who needs an additional display.

Smooth gameplay thanks to a 120 Hz refresh rate

The UPERFECT M185T09 offers a 120 Hz refresh rate, which allows dynamic scenes to be displayed with great smoothness. As a result, character movement, camera panning, and rapid scene changes

look more natural, enhancing your gaming experience. A 14 ms response time complements the panel’s capabilities, and FreeSync support helps reduce screen tearing by synchronizing the refresh rate with the signal from a compatible device.

Clear Image and Rich Colors

The IPS panel with a resolution of 1920 × 1080 pixels delivers a detailed image. A pixel density of 119.08 PPI ensures sharp text, icons, and graphics, while the 16:9 aspect ratio allows for comfortable viewing of popular multimedia content. 100% sRGB color gamut coverage and 8-bit color depth enable the display of 16.7 million shades, ensuring natural and varied colors. Additionally, the wide 178° viewing angles ensure good image visibility even when viewing the screen from the side.

More Details Thanks to HDR

HDR support helps bring out details in both bright and dark areas of the image, enhancing the visual appeal of the content. A 1200:1 contrast ratio helps maintain clear distinctions between individual elements in a scene, while a brightness of 290 cd/m² ensures good readability during everyday use. The monitor also features a matte finish that reduces glare and makes it easier to use the device in a well-lit room. This allows you to comfortably focus on your game, the movie you’re watching, or the task at hand.

Versatile Connectivity

The monitor is equipped with two multifunctional USB-C ports that support video and audio transmission, allowing you to conveniently connect compatible devices. There’s also a mini HDMI input, which provides an additional way to transmit audio and video signals. This lets you tailor the connection method to the equipment you’re currently using. Additionally, the 3.5 mm AUX audio output allows you to connect headphones or external speakers. The device also features two built-in speakers with an impedance of 8 Ω and 1 W of power each, allowing you to play audio without needing an additional audio system.

Slim Design and Convenient Setup
