UPERFECT M184T01 Portable Monitor

Enjoy exceptional image quality and enhance your daily work experience with the UPERFECT M184T01 portable monitor. The device features an IPS panel with 4K UHD resolution (3840 × 2160), which ensures exceptional detail in the displayed content. With 100% sRGB color coverage, HDR support, and FreeSync technology, this monitor is ideal for graphic design, watching movies, or gaming. The matte screen surface reduces glare, and the 60 Hz refresh rate ensures smooth image display. The entire unit is housed in a slim aluminum chassis just 15 mm thick, making it easy to carry and use as a secondary screen in various locations.

4K UHD Resolution – See Every Detail

The 3840 × 2160-pixel resolution lets you see even the finest details in photos, videos, and graphic designs. A pixel density of 239.45 PPI translates to sharp edges, legible text, and detailed images—features you'll appreciate whether you're working or enjoying entertainment. The 16:9 aspect ratio ensures comfortable viewing of various types of content, from documents to videos. Thanks to wide 178° viewing angles, the image remains clearly visible even when viewed from the side.

Natural Colors and Rich Detail

The IPS panel with 100% sRGB color gamut coverage delivers a wide range of colors, making photos, graphics, and videos look stunning. The monitor uses 8-bit + FRC technology, capable of displaying approximately 1.07 billion shades, resulting in smoother tonal transitions and more detailed color reproduction. Additionally, HDR support enhances the display's ability to handle content with varying brightness levels, helping to better highlight details in both bright and dark areas of the image. A 1000:1 contrast ratio and 300 cd/m² brightness round out the display's capabilities, ensuring clear content presentation during everyday use.

A Matte Screen for More Comfortable Use

Do you work at a desk, review documents, or spend many hours in front of a screen? The matte surface of the UPERFECT M184T01 monitor reduces light reflections that could make it difficult to see the displayed content. This allows you to use the device more comfortably in rooms with varying lighting conditions. Combined with the IPS panel and wide viewing angles, this solution works well when working with text, spreadsheets, graphics, and multimedia content.

Smoother Entertainment with FreeSync

The monitor offers a 60 Hz refresh rate and supports FreeSync technology, which helps reduce screen tearing caused by differences between the number of frames generated and the screen's refresh rate. As a result, dynamic scenes in games can be displayed more smoothly, without annoying visual disruptions. The panel's response time is 20 ms, and the combination of 4K UHD resolution with HDR support lets you enjoy detailed images even when watching movies and other video content.

Wide Range of Connectors

The UPERFECT M184T01 is equipped with two full-featured USB-C ports that support video and audio transmission, as well as a mini HDMI input for an additional signal source connection option. You also have access to a USB-B port with OTG support, allowing you to connect a USB flash drive, keyboard, or mouse. The 3.5 mm AUX port, meanwhile, allows you to route audio to external audio equipment. Thanks to this set of interfaces, the monitor can be conveniently used in various workstation and entertainment setups.

Aluminum Housing and Convenient Installation

The monitor features a slim design measuring 432 × 252 × 15 mm. The aluminum housing ensures a sturdy build, and its slim profile makes it easy to move the device and set it up in various locations. An additional advantage is support for the VESA 75 × 75 mm standard, which allows you to mount the monitor on a compatible mount using M4 × 4 mm screws. This allows you to better organize your desk space and adjust the display’s position to suit your needs.

Built-in Speakers for Greater Convenience

The UPERFECT M184T01 features two built-in speakers, each with 1 W of power and 8 Ω impedance, allowing you to play audio without having to connect additional audio equipment. This feature is useful when watching movies, giving presentations, or enjoying multimedia content.

Included in the box

- Monitor
- USB-C to USB-C cable x2
- Mini HDMI to HDMI cable
- AC adapter
- User manual
