R4,150

Nitro 440 G2 is an armchair created for those who appreciate comfort and subtle design. Functionality and subdued design are not all its advantages - the backrest and seat are covered with a special SensiMesh™ fabric, which provides even better ventilation compared to traditional fabric. The Nitro 440 G2 - relative to the previous version - has also been improved with a number of elements: a metal base, 60-millimeter casters with CareGlide™ coating and 1D adjustable armrests. Experience its advantages and take comfort to a new level.

EVEN BETTER VENTILATION

Meet SensiMesh™ fabric developed for users who want maximum comfort and full ventilation. The improved airflow is due to a distinctive weave that provides better ventilation compared to classic fabric. Hot days? From now on they won't scare you.

TAKE CARE OF YOUR HEALTH

No matter what you're doing, hours-long sessions in front of the computer can contribute to neck and back pain, which translates into gaming discomfort and difficulty concentrating. The Nitro 440 G2 is equipped with special, fully adjustable cushions to relieve pain-prone sections. Play comfortably and focus on what matters most. Leave the rest to the Genesis 440 G2.

STABLE CONSTRUCTION

The Genesis Nitro 440 G2 is equipped with an exceptionally sturdy metal base and a Class 3 gas lift. A big advantage of the design is also the large 60-millimeter nylon wheels, which will not scratch the floor thanks to a special CareGlide™ coating.

MATCH YOUR OWN STYLE

The Nitro 440 G2 allows for convenient adjustment. Adjust the seat height and backrest angle according to your preference. You can also adjust the height of the wide and soft armrests to play comfortably while maintaining proper posture not only for your back and legs, but also for your arms. During breaks, you can use the rocking function to fully relax.
