Ubiquiti UACC-Lock-Strike-Secure-15mm Access Electric Lock

Model: UACC-Lock-Strike-Secure-15mm

Manufacturer: UBIQUITI

EAN: 8100100764962

Product Code: 1706612

R2,792

ROBUST SECURITY WITH FAIL-SECURE TECHNOLOGY

The Ubiquiti Fail-Secure Bolt Lock offers a reliable security solution designed for both wooden and metal single doors. Utilizing fail-secure technology, this lock ensures that in the event of a power failure, the lock remains secured, providing peace of mind for users. The lock's robust aluminum alloy construction not only enhances durability but also resists tampering, making it an ideal choice for high-security environments. With a compact design, it fits seamlessly into door frames, ensuring that security does not compromise aesthetics.

VERSATILE AND EASY INSTALLATION

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Designed for straightforward installation, the Ubiquiti Fail-Secure Bolt Lock features a door frame recess mount, making it compatible with various door types. The lock comes with a comprehensive wiring setup, including connections for normally open (NO), common (COM), and normally closed (NC) configurations, allowing for flexible integration into existing security systems. With dimensions of 132 x 30 x 42 mm for the lock body, it is compact yet powerful, ensuring that it can be easily accommodated in most door frames without extensive modifications.

RELIABLE PERFORMANCE IN DIVERSE CONDITIONS

This electric drop bolt lock operates effectively within a wide voltage range of 12V DC ±10%, drawing a maximum current of 900mA. Its operational temperature range of -10 to 60° C (14 to 140° F) and storage temperature of -20 to 70° C (-4 to 158° F) ensure reliable performance in various environmental conditions. The lock also features an LED indicator to signal its status, with red indicating a locked state and green for unlocked, enhancing user awareness. Additionally, it is NDAA compliant and certified by FCC, IC, and CE, ensuring adherence to stringent security standards.
