

Tefal Pure Tex DT9530G0

Model: DT9530E1

Manufacturer: TEFAL

EAN: 3121040081969

Product Code: 1706888

R1,968

Handheld Garment Steaming just got even more versatile. As well as making your outfits smart and fresh, Pure Tex lets you sanitise them effectively, quickly and easily too. From the coat you wore to the supermarket to a teddy bear dropped on the floor – a quick blast of steam does the job. You don’t have to worry about disinfectants or harsh chemicals ruining your clothes or leaving unpleasant odours. The natural power of steam kills 99.9% viruses, bacteria and germs*. Each action has a dedicated attachment for maximum effectiveness and switching between them is a dream thanks to the magnetic design that let you snap what you need in to place. The de-lint attachment is even reversible, giving you lint and hair removal on one side and micro dust removal on the other for the best possible clean. Of course, it’s a garment care master too, with 1700 watts of power and a ceramic soleplate the creases just slide out of your favourite clothes so you can achieve your style quickly and easily. And you can take your textile care to the next level, infusing your favourite perfumes and scents by adding them to the MyPerfume insert that plugs directly into the steam bonnet. Why settle for anything less when the Tefal Pure Tex gives you so much?
