This magnetic mount can be used to stick the camera to smooth, flat surfaces. The adhesive base and ball-joint design allow you to stick the camera to surfaces at different angles to gain unique vantage points. Remove the adhesive base, and attach tripods, extension rods, or other third-party accessories via the 1/4 screw hole.

Stick Action 2 into position with the reusable adhesive base to gain unique vantage points in any scenario.

DO NOT attach the adhesive base to surfaces that are rough, powdered, peeling, covered in dust or sand, or have oil or water stains. Otherwise, the adapter mount may not be attached firmly.
