R782

Protective bag for EV charging cable, round, Nylon, black" from LogiLink

Sturdy and spacious nylon protective & carrying case for type 2 car charging cable. Protects the cable from moisture, dirt and damage from luggage in the trunk. Keeps the cable tidy when traveling - no tangled cables. Easy and quick opening and closing by zipper, making the cable immediately at hand. The round bag can carry Type 2 electric car charging cable up to 7 kg.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
