ACT Keystone Jack RJ45 CAT6A Shielded toolless with dust cover

Model: TD6525

Manufacturer: ACT

EAN: 8716065532180

Product Code: 1711082

R833

The TD6525 Shielded Keystone Jack RJ45 CAT6A provides a solution for connecting solid or stranded cables with an outer diameter of 5.0 - 8.5mm and 23 - 26 AWG wires in a patch panel. The keystone jack has a white dust cover/shutter to protect the 50µ gold-plated contacts from dust. LSA tool free installation and colour-coded T568A and T568B wiring schemes ensure easy assembly. Additionally, the keystone jack can handle PoE++ 100W (type 4). The enclosed zip-tie is used as strain relief.

Use this compact ACT toolless RJ45 keystone jack in a high density patch panel or wall outlet. The keystone is also suitable for standard patch panels.
