LG ProBeam BU70QGT 7000 ANSI lumens DLP UHD 4K (3840x2160) Black

Model: BU70QGT

Manufacturer: LG

EAN: 8806096542002

Product Code: 1713175

R78,624

Laser 4K UHD & 3M:1 CR

Exceptional picture quality

With 8.3 mega pixels utilizing 4K UHD (3840 x 2160) resolution, LG ProBeam delivers precisive details from 40-inch up to the 300-inch screen. With 3M:1 contrast ratio, it can express deep darkness and brightness.

7,000 ANSI Lumens brightness

Accurate color even in bright ambient

Thanks to the 7,000 ANSI Lumens brightness, LG BU70QGT can produce clear picture quality even in bright indoor environments such as building lobbies.

Edge blending

Seamless panoramic view

By supporting Edge blending technology which controls the luminance of the area where the projected light overlaps, it can provide the seamless connection without resulting in a higher luminance when two or more projectors must be used simultaneously.

Flexible and easy installation

Simply adjust screen distortion

With zoom x1.6 & lens shift (V 60/-33%, H ±28%) functionality, the user can easily set the screen through fine-tuning by adjusting the lens and zoom.

Up to 25 point warping

Simple and delicate screen adjustment

You can adjust screen distortion and set up a precise screen by using the 4/9/15/25 point warping function on the screen.

Screen rotation

Rotate the screen as you want

As supporting Screen rotation you can position the projector anywhere you want, or rotate the screen without physically changing the projector's position.

SuperSign

The easy way to manage and maintain

By supporting signage-optimized functions, various solutions such as content distribution and remote management of installed projectors are provided.

LG SuperSign CMS

It is a content management software solution optimized for LG webOS signage. It supports multiple displays and accounts, so multiple users can easily access the server from pc or mobile, then manages content creation and editing, scheduling, and distribution.

LG SuperSign Control+
