

FSP ADVAN GM 1000W Power supply unit ATX ATX3.1 Black

Model: PPA10A4200

Manufacturer: FSP

EAN: 4711498480798

Product Code: 1714295

R3,023

Complies with Intel® Power Design Guide ATX 3.1

ADVAN GM series is compatible with the latest ATX 3.1 regulation to support up to 200% power excursion and with the new interface of PCIe 12V-2x6 connector to ensure peak performance with future hardware upgrades.

LLC Resonant-converter Topology with Synchronous Rectifier

Reducing switching losses, boosting efficiency, and keeping the output voltage regulated under load conditions.

High Efficiency in Gold-certified

Certified by world-class organizations 80 PLUS ® and Cybenetics gold certified for lower power loss, less heat, and quieter operation.

ECO Switch with ZERO RPM Silent Operation

Activating the eco semi-fanless fan control switch, when the PSU operates at less than 40% capacity, will ensure the fan does not run, resulting in silent operation.

120 mm Hydraulic Bearing (HYB) Fan

Quality bearing keeps fan noise to a minimum while providing maximum cooling performance.

Fully Modular Cabling Design

To make power supply installation easy and allows users to use only the needed cables, improving airflow and reducing system clutter.

The Force Comes with You

Dual PCIe 6+2Pin cables and a versatile 12V-2x6 cable offer flexible configuration for even the most power-hungry NVIDIA or AMD graphics cards.

+5V & 3.3V DC to DC Circuit Design

Increase the efficiency and stabilize the output voltage to ensure system stability.

Powerhouse Single +12V Rail

This high-amperage +12V rail delivers high load capabilities, it’s ideal for intensive workloads of high-performance CPUs and graphics cards.

105°C Japanese Bulk Capacitor

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

Maximize reliability and performance by using top-quality Japanese electrolytic capacitors for a longer lifespan.

Premium, Black Embossed Cables

Featuring improved black, embossed cables that are soft and easy to bend, users can manage them more easily, saving time and creating more space for optimal cooling performance in your PC build.
