TP-Link EX520 wireless router Gigabit Ethernet Dual-band (2.4 GHz / 5 GHz) Black

Model: EX520

Manufacturer: TP-LINK

Product Code: 1715371

R2,578

Dual-Band WiFi 6 Up to 3.0 Gbps

WiFi 6 (802.11ax) technology brings faster speeds, less lag, and higher capacity, enabling more simultaneous connections on your home network. Every application feels more fluid with drastically improved WiFi speeds. Both the 2.4 GHz band and 5 GHz band get upgraded to the latest generation—perfect for 4K/8K streaming, online gaming, and fast downloading.

More Connections at High Speed

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Easily handle dozens of devices streaming and gaming at the same time. OFDMA and MU-MIMO future-proof your home network by providing greater capacity to connect more devices.

Extensive WiFi Coverage

Beamforming technology and high-performance antennas combine to adapt WiFi coverage to perfectly fit your home and concentrate signal strength towards every device.

Create Smart Mesh WiFi with Great Flexibility

Create a unified mesh WiFi network with several EX520’s working together or with other EasyMesh-compatible router or mesh AP for seamless whole home coverage.

Gigabit Broadband Internet Access

The Gigabit Ethernet ports allow you to take full advantage of your broadband speed up to 1 Gbps. Plug your PCs, smart TVs, and game consoles into one of the four Gigabit Ethernet LAN ports for fast and reliable wired connections.

Easy to Set Up and Use

You can set up your device and network in minutes, whether you prefer the powerful Aginet app or the intuitive web interface. The Aginet app allows you to manage your network from a smartphone or tablet.

Support TR-069 Remote Management

ISPs can remotely configure and manage the devices via ACS (Auto-Configuration Server). High-level operations support TR-181, TR-111, and TR-143 protocols.

Aginet Solution: End-to-End Management Platform for ISPs

The Aginet solution offers ISPs powerful and flexible platforms to manage multiple devices for connected homes, such as dynamic service provisioning, zero-touch firmware upgrading, and remote troubleshooting and mesh WiFi diagnostics.
