The Allied Telesis GS950/10PS Gigabit Ethernet WebSmart switch features two Gigabit ports, two SFP combo ports, and eight PoE+ ports delivering up to 30 Watts per port to support video surveillance and security cameras, wireless access points, IP phones and other PoE powered devices. The PoE option eliminates the need for power rewiring and minimizes the clutter of power supplies and adapters in awkward places. Thanks to its compact size, the AT-GS950/10PS is ideal for wiring-constrained and smaller environments such as micro branch offices, classrooms, cafes, and smaller retail stores.
