NITRO 550 G2

GAMING CHAIR

Stronger construction and even greater comfort thanks to the new seat. Meet the Genesis Nitro 550 G2 - an upgraded version of the well-known Genesis Nitro 550 chair, with which you will not only take care of proper posture but also get rid of pain during long gaming sessions, helping you take your gameplay to a whole new level.

FOR YOUR COMFORT

Genesis Nitro 550 G2 is a construction that will easily take care of your health. This will be possible not only thanks to numerous contours but also movable elements (such as lumbar and neck cushions) that protect the most vulnerable areas prone to pain during long gaming sessions. You can also count on a wide reclining backrest and a new soft seat that will maintain its properties for a long time.

EXPERIENCE SOFTNESS LIKE NEVER BEFORE

The seat of Genesis Nitro 550 G2 is filled with deformation-resistant foam. All of this is to ensure that it maintains its properties for many years. What's more, we have enriched it with strong supporting straps to provide greater durability and the best possible experience in any situation.

ADJUST WHATEVER YOU WANT

Freedom of adjustment and elements that will help you customize the chair to your preferences. These are the biggest advantages of Genesis Nitro 550 G2. Adjust the height, recline the backrest, lower or raise the armrests, and enjoy your own unique setting that provides comfort for many hours.

5-STAR METAL BASE

Durability is extremely important to us, which is why we equipped Genesis Nitro 550 G2 with a metal 5-star base, which offers significantly greater durability compared to nylon counterparts. It not only provides complete stability but also positively influences the overall design of the chair, allowing it to fit into almost any setting. For smooth movement of the chair, 60-millimeter CareGlide™ coated casters will assist you, all without the risk of scratching the surface.

NO NEED TO WORRY ABOUT TEMPERATURE

Forget about high temperatures. Genesis Nitro 550 G2 is made of abrasion-resistant, breathable fabric that ensures a constant airflow even on hot days. The overall design is complemented by stylish inserts made of eco-leather. Thanks to them, you can seamlessly integrate the chair into both a gaming setup and office space.
