R3,352

ErgoSlider Plus Underarm Support Asymmetrical

Designed to provide support and comfort for your arms while you work at your desk and computer.

The ErgoSlider Plus Underarm Support is a useful accessory for anyone who spends a lot of time working at a desk with the computer and wants to improve their comfort and productivity while reducing the risk of developing pain or discomfort. It helps you especially when you don't have armrests on your chair or while you are standing. By resting your arms on the ErgoSlider Plus Underarm Support, your neck and shoulder muscles will be more relaxed, and you will stay in a better body posture. It is optimised for a tabletop thickness from 10 to 32 mm.
