NEEWER 660 PRO II RGB – LED video light with swivel mounts

The Neewer 660 PRO II RGB is a lighting kit for creators, photographers, and videographers who expect full control over lighting, portability, and reliable performance in all conditions. This light offers adjustable brightness, color, and color temperature, a high CRI of 97+, several interesting lighting effects, and smooth, flicker-free operation. It’s the perfect tool for photo shoots and more! The lamp is best mounted on a tripod, which is not included in the set and must be purchased separately.

Lighting Tailored to Your Needs

With a power output of up to 50 W and a brightness of 7,000 lux (at 0.5 m), it provides intense, even lighting, while the CRI of 97+ ensures natural color reproduction. The light generated by the lamp is

also easy on the eyes and free from annoying flicker. This makes the device ideal for situations requiring color consistency in shots and repeatable results. The lamp also allows you to adjust brightness (0–100%) and color (in HSI mode). You can also adjust the color temperature (3200–5600 K)—from warm portrait lighting to neutral or cool cinematic tones. In addition, you have a whole set of special modes at your disposal, such as Police Car, Ambulance, Fire Truck, Fireworks, Lightning, Party, Paparazzi, Candlelight, and TV Screen.

App Control

The light supports control via a mobile app within a range of up to 15 m. Channels 1–8 and ALL mode are available. Additionally, the ability to save two presets speeds up your workflow, allowing you to instantly recall your most frequently used lighting configurations.

Complete flexibility in positioning

The 360° rotatable U-shaped mount allows you to position the panel at any angle. The kit also includes a diffuser that evenly softens the light and enhances the look of portraits. This makes the light ideal for film sets or studio sessions.

Power Options Suited for Studio and Outdoor Use

You can power the light using the included power adapter or NP-F550 / NP-F970 rechargeable batteries (not included). This means you can use it freely in almost any conditions—indoors and outdoors.

Included

- Light
- Power adapter
- Carrying bag
