SMALLRIG 5474 Video Tripod

The SmallRig 5474 Video Tripod is a lightweight and versatile tripod designed for photography, video recording, vlogging, and live streaming. It offers a maximum working height of 172 cm, a leg load capacity of up to 5 kg, and a head load capacity of up to 2 kg, making it compatible with mirrorless cameras, action cameras, and smartphones, among other devices. When folded, it is 54 cm long and weighs approximately 1155 g, making it easy to transport and use outside the studio.

Adjustable Height and Stable Construction

The adjustable center column and four-section legs allow you to adjust the tripod’s height to suit various framing styles. The aluminum alloy construction ensures adequate stability during use, and the legs have a maximum diameter of 30 mm. The built-in spirit level helps you properly align your equipment with the ground, making it easier to achieve a level frame when filming and taking photos.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Compatibility with Various Devices

The head features a 1/4"-20 screw, allowing you to mount DSLRs, mirrorless cameras, and action cameras equipped with the appropriate thread. The base features a 3/8"-16 thread, allowing the tripod to work with compatible ball heads, video heads, and gimbals. The included smartphone mount further expands the tripod’s versatility for vlogging, recording mobile content, and live streaming.

Convenient for Use and Transport

When folded, the SmallRig 5474 takes up relatively little space, so it can be conveniently stored or transported in the included bag. The manufacturer recommends using the tripod with smartphones, action cameras, and mirrorless cameras, such as select Sony ZV models, the Sony a6000, and the Canon EOS R APS-C. For cameras, it is recommended to avoid lenses with a focal length exceeding 70 mm, and before use, ensure that the legs and head are properly locked in place.

Included in the set

- SmallRig 5474 Tripod
- Smartphone mount
- Allen wrenches (3 pcs.)
- Carrying bag
- Warranty card
