DIGITUS Extension Cable USB 3.0 SuperSpeed Type USB A/A M/F active black 10m

Model: DA-73105

Manufacturer: ASSMANN ELECTRONIC

EAN: 4016032457480

Product Code: 1717420

R1,215

Connect more distant USB 3.0 devices using this active extension cable. Benefit from stable connections and avoid power losses even at greater distances using the integrated signal amplifier. The integrated LED function indicator signals the status of the signal amplifier. Connect your USB 3.0 devices such as printers or scanners to your PC or laptop even over greater distances. The integrated electronics ensures smooth data transfer without loss at all times. No more connection problems when using longer USB cable connections!

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
