R12,999

Smart liner-free label printer

This thermal label printer has been developed for a range of retail and hospitality businesses, including fast-food retail chains, restaurants, food delivery services, ghost kitchens, supermarkets, convenient stores and catering. The TM-L100 supports a range of media, including thick and highly-adhesive media, to help create a range of permanent and semi-permanent labels. It can also be easily integrated as part of an overall POS solution.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Specifically designed for takeaway and delivery

The TM-L100 has been specifically designed for creating both permanent and semi-permanent takeaway and delivery labels. The printer supports a range of media, including thick and highly-adhesive media

No more peeling

The TM-L100 produces clear, legible and highly-adhesive labels, without the need to peel off the backing paper.

Messy, handwritten labels are a thing of the past

Avoid costly mistakes associated with handwriting labels.

Reduce your environmental impacts

Print labels without the plastic backing paper to reduce label waste.

Flexible connectivity options

With Bluetooth, Serial and Ethernet connectivity, you can connect to the printer however you need to. Sync and charge functionality means power and data is sent over a single cable.

No need to change your system

The TM-L100 can be easily integrated into existing POS systems, thanks to embedded ePOS capacities.

Looks great on your point-of-sale

The stylish design of the TM-L100 means it fits seamlessly into any environment. Compact with a small footprint, it doesn't take up valuable counter space. A new silicon laminate surface makes the product easy to clean and prevents labels from sticking to it.
