Goodram SSDR-GRC01-4K0-80 internal solid state drive 2 TB M.2 PCI Express 5.0 NVMe 3D NAND

Model: SSDR-GRC01-4K0-80

Manufacturer: GOODRAM

EAN: 5908267913604

Product Code: 1718351

R12,477

State-of-the-art Gen 5 interface

The Goodram Core fully utilises the potential of the latest PCIe 5.0 x4 interface. Transfer speeds of up to 10,300 MB/s ensure significantly faster performance than standard Gen 4 drives, guaranteeing longer hardware relevance and compatibility.

High performance and stability

The drive offers stable operation at high read and write speeds, ensuring smooth performance even under heavy system load.

Power under control

The Goodram Core is characterised by its low energy consumption, making it an ideal solution for desktop
computers and laptops where energy efficiency is important, yet high performance is still required.

A wide range of capacities

With capacities ranging from 500 GB to 4 TB, you can tailor the drive to the needs of a specific user or device. The Goodram Core works well as both a fast system drive with a PCIe 5.0 interface and for storing files.

DirectStorage technology – ready for a new era of games and applications

Goodram Core supports DirectStorage technology developed by Microsoft, which significantly reduces data loading times in games and applications that use high-speed data transfer. With this technology, the drive loads textures and resources directly into the GPU memory, reducing the load on the CPU and increasing gameplay smoothness and application responsiveness.
Goodram Core, a modern fifth-generation SSD, is a solid choice for users who value speed, modernity and energy efficiency, dedicated to computers equipped with a PCIe 5.0 interface.

Warranty and support

As a manufacturer, Goodram provides a 5-year TBW limited warranty with free technical support.
