LOW TEMPERATURE? IT'S POSSIBLE

The Genesis Oxid 550 stand is designed for laptops up to 17.3". Such large models can rest safely on its surface thanks to additional rubber protections. They prevent the laptop from slipping and unwanted falls.

5 POWERFUL FANS

The Genesis Oxid 550's cooling system based on four smaller fans bringing warm air out from under the laptop and one large fan bringing in cool air. By distributing them over the entire surface, your laptop is cooled evenly. This is also helped by the front aluminum panel.

PHONE ALWAYS WITH YOU

The Genesis Oxid 550 features a removable phone holder that can be mounted on the right or left side of the stand. So if you want to stay in touch with the world during gameplay or keep track of important information, your phone will always be close at hand.

ANGLE ADJUSTMENT

The Oxid 550 is also about ergonomics. Five levels of angle adjustment give you the ability to position your laptop in the most comfortable position for you. Placing the laptop at the right height will relieve neck strain, eliminate eyestrain and allow you to maintain proper posture for long hours.

UNIQUE DESIGN

Functionality is not everything. The Oxid 550 stand is also a great design. Black and red elements give it an aggressive look. There was also fan backlighting, which will make the Oxid 550 look unique on your desk.
