

TP-Link Archer C64 wireless router Gigabit Ethernet Dual-band (2.4 GHz / 5 GHz) Black

Model: Archer C64

Manufacturer: TP-LINK

EAN: 4897098683217

Product Code: 1719023

R1,390

The **TP-Link Archer C64** is a high-performance **AC1200 Dual-Band Wi-Fi Router** that leverages advanced **Wi-Fi 5 (802.11ac)** technology to deliver fast and efficient wireless connectivity. Operating on dual-band frequencies of **2.4 GHz** and **5 GHz**, this router achieves a maximum WLAN data transfer rate of **1200 Mbit/s**, making it an ideal choice for streaming, gaming, and browsing without interruptions. The sleek black design ensures it fits seamlessly into any home or office environment, while its tabletop placement allows for easy access and optimal performance.

Equipped with a **Gigabit Ethernet LAN interface**, the Archer C64 enhances wired connection speeds and reliability, catering to users who require stable internet access for demanding

applications. The router's advanced security features, including **WPA, WPA-Enterprise, WPA2, WPA2-Enterprise, and WPA3**, provide robust protection against unauthorized access, while the integrated **SPI firewall** further safeguards your network integrity. This comprehensive security suite ensures that your data remains protected in an increasingly connected world.

Supporting both **IPv4** and **IPv6** protocols, the TP-Link Archer C64 is compatible with a wide range of network infrastructures, making it a versatile solution for various users. Its finely tuned receiver sensitivity guarantees stable and reliable wireless connections across different distances and conditions, setting it apart from competitors. With its combination of speed, security, and compatibility, the **TP-Link Archer C64** stands out as an effective choice for those seeking sustained and secure high-speed internet connectivity.
