DJI Power 1000 Mini Charging Cable for Car Battery

The 5-meter cable allows you to connect the DJI Power 1000 Mini directly to a car battery, enabling convenient recharging while on the go. Combined with the station’s built-in fast car charger with up to 400 W of power, it ensures smooth and efficient charging. Additional features include a replaceable blade fuse, which enhances safety, and an SDC port cover that protects against dust and other contaminants. Note: This product is designed for internal combustion engine vehicles—it is not compatible with hybrid or electric cars.
